

Conference IOS ISLAND-GREECE 23-24 September 2010

- **It is our pleasure to invite you to** the conference organized by the Further Education and Training Sector (TEK) of the Research Academic Computer Technology Institute (ra.CTI) under the framework of the REVIT Project funded by the LifeLong Learning Programme (Key Activity 3:ICT) of the European Commission.
- **The REVIT project** addresses people living in remote rural or insular areas where fewer learning opportunities are available for both young pupils and adults. Children or adults, professionals or not, everyday citizens can complement the mainstream education, receive further training in their professional domain or even simply become familiar with the use of ICT in their everyday life. For this purpose, a series of e-courses, grounded in remote participants' actual needs, as probed in Cyclades (Greece), Fornetka (Poland), Kula (Bulgaria) and Palaichori (Cyprus) have been designed, developed and implemented through modern synchronous and asynchronous distance learning tools based on Web 2.0 technology.
- **The conference will take place in Ios, Greece on 23 – 24 September 2010** (venue: Municipality of Ios, Chora, Ios Island). The event aims to present the project results in local and national authorities, academic audience and the educational communities as well as to the exchange of ideas and experience on the pilot implementation of the REVIT distance learning model at all participating countries.

We look forward to your presence to this event,

Prof. Charalambos Zagouras
Director of TEK

Demetra Egarchou
REVIT Project Coordinator

Provisional Programme

REVIT Conference - Ios Island, Greece

Thursday 23 September 2010

09:00 - 09:30 Arrivals/Coffee.
